Election/Restrictions

Claims 1 and 41 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 9, 10, 15 and 23-36 are no longer withdrawn from consideration since all of these claims depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 39 and 43-69 remain withdrawn from consideration since they do not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
